

This is a series of optional tasks for your child to complete. You can be creative as you like with presentation, but please try and keep it in the Home Learning book.

We are still asking you to listen to your child read on a regular basis and class teachers may send home other short tasks such as spellings to practise and maths activities as required to support children's learning in school. Thank you for your continued help with this.

# Home Learning

## Term 1 2017

# Year 1

### Autumn Challenge

What signs of Autumn can you find?  
Record in your own creative way or bring in what you find for the classroom.

### Me and my world

Can you make a book all about your world? For example you may want to include who your family members are, your favourite book, food, etc.

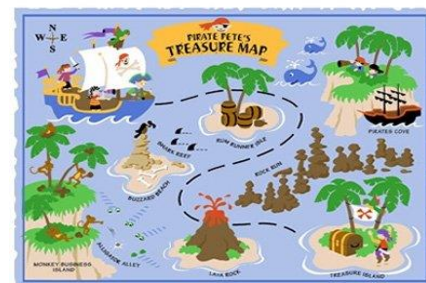

### Marvellous Maths

Can you draw or take a photo of your family in height order? Could you choose different objects to order by length?

### Go Explore!

Can you use your imagination and design a map of a room in your house or design your own dream bedroom. You can be as creative as you like! Can you use

labels to show the different areas on your map?

### Word hunt!

Next time you are out and about, can you spot objects that have the sh, wh, ch and th graphemes? Happy hunting!
