

Home Learning

Year 6

Term 5 2018

The Island

Being curious, what do you search out or what gets your mind and heart racing? What are you passionate about? Complete a story describing your time on an isolated island.

Art and Design

Can you design an ancient Greek amphitheatre or your own shield with its very own unique pattern? Could you create a picture or drawing depicting a Greek myth?

Investigation

We will be studying Biomes of the world. Can you think of a biome you have visited whilst on holiday. Can you describe any interesting features of the flora or fauna? Be imaginative with your findings.

Your child will receive compulsory home learning each week from now on to prepare them for secondary school.

The Ancient Greeks

Research how Ancient Greece has moulded our culture; have you seen Greek architecture or been to Greece?

You can present your research in any way that you would like to: a poem, poster, newspaper article, even an interview etc.

Remember your non-negotiables and presentation.

Maths MyMaths

<https://www.mymaths.co.uk/>

We would like to encourage your child to revise and practise mathematical concepts covered in Terms 1 and 2.
