

# Home Learning Term 5 2017

# Year 6

## Reading

Review your reading passport, which different authors have you read this year? Have you enjoyed discovering someone In -particular? Design a review / poster/ for the library encouraging someone else to try the author or book? Be creative; give enough information to interest your audience but remember DON'T give the plot away.

## Science / Geography

We would like to encourage you to investigate evolution. We have researched how Darwin's Finches adapted over time and how living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents. We would like you to compare photos of yourselves and your parents to see which characteristics you have inherited.

	5	3	2	7			8
6		1	5				2
2			9	1	3		5
7	1	4	6	9	2		
	2						6
			4	5	1	2	9
	6		3	2	5		9
1					6	3	4
8			1		9	6	7

Your child will receive a compulsory home learning each week from now on to prepare them for secondary school.

## WW2 - Local History study, Compulsory

We thought that more of you may have taken the opportunity last term to do this task and so we would like you to carry this research out over this term please. It is so important that we learn about how the previous generation coped through these very difficult times. In previous years the children and parents have learnt so much about their grandparents/ parents and have cherished the stories they were told. The work produced has been emotional and could have been published.

### Tell a family or friends story.

WW2 was a 'total' war this means that everyone was affected in some way. Interview a family member, friend or neighbour about how they were affected by WW2. You can record your story in any way which you choose but must have a writing focus. We will explain more in class and show you examples to inspire you.
